

# Attaining True Adulthood

---

## White Flowered Basket Plant

### Coming fully into adulthood

The flower essence for assisting in the process of a person becoming fully and truly an “adult”, which is a very rare thing, as most humans on earth today are still, emotionally and spiritually, immature babies.

The process of fully growing up is very difficult and complex, and this essence assists one in all aspects of this, and in the transition process, including the process of “initiation into adulthood”.

**Affirmation:** “I now leave behind babyish things,  
and become fully and truly an adult.”
