

# Human Divinity and God-Self

---

## Mexican Bush Sage

### Finding our connection to our God-Self

The flower essence to assist in going deep within oneself and bringing out that which is each human's true nature, their God-Self, their "human divinity".

Each of us has our true divinity hidden deep inside, under many layers of illusion and false beliefs. It is time for many of us to dissolve the false beliefs and allow our God-Self divinity to shine forth in the world.

**Affirmation: "I go deep within myself and find my true God-self. I allow my true human divinity to shine forth in the world."**
