

Family Issues

Tree with Yellow Fruit

Resolving family issues

The flower essence for “family issues”, in all their glorious variations, and frustrations. Helping us to appreciate family for what is really is, an opportunity for learning and experiencing all types of human experiences, especially the experiences that we find to be “emotional”, and to learn to not buy into these experiences in ways that inflate their meaning beyond what they really are.

Affirmation: “I now realize the truth regarding family and its purpose.”
