

Gender and Yin-Yang Issues

Coronilla valentina – Variegata

Resolving gender issues and polarized inner duality

The flower essence for gender issues of male and female, yin and yang.

Helping us to integrate the very deep lessons of everything to do with the “battles of the sexes” (not to do with sex itself).

For helping us to see the true significance of these gender-based “issues”, to accept the truth of gender, and to let go of all of the many misconceptions and untruths that we have been taught and programmed with.

Affirmation: “I now realize the real truth and meaning of gender.”
